Wednesday, January 25, 2017  
FOR IMMEDIATE RELEASE

## House Appropriations Subcommittee on Health and Welfare Holds Hearing on Cost of Prop. 206

**STATE CAPITOL, PHOENIX** – The House Appropriations Subcommittee on Health and Welfare, chaired by Representative Regina Cobb (R-5), held a hearing yesterday on the cost of implementing Prop. 206.

The Subcommittee heard testimony from the Arizona Association of Providers with Disabilities, as well as self-advocates and families of those impacted by Prop. 206.

**“Not only is Prop. 206’s fiscal impact to the state’s general fund significant, but it hurts those among us who can least afford it: Arizona’s developmentally disabled,”** said Cobb. **“I thank Arizona’s developmentally disabled and their families and providers for sharing testimony with the Subcommittee and pledge to work diligently to mitigate Prop. 206’s unintended consequences.”**

On Thursday, January 26 at 9:00 a.m. in HHR 4, the House Appropriations Subcommittee on Public Safety, Infrastructure, and Resources will hear from Arizona business and industry leaders how the implementation of Prop. 206 will affect them.
